T: estimate calculations

Estimate the answers to these questions.

DO NOT work out the exact answer:

- 1) $21 + 18$
- 2) $64 + 22$
- 3) $42 - 21$
- 4) $78 - 44$
- 5) $28 + 53$
- 6) $98 - 72$
- 7) $102 + 304$
- 8) $501 + 203$
- 9) $304 - 201$
- 10) $602 - 403$
- 11) Matt says that $89 - 72 = 57$. How could you use estimation to quickly tell you that he is wrong?
- 12) Louise works out that $43 + 28 = 71$. How could she use estimation to check if her answer is completely wrong?
