

Date

T: use vertical addition

Your answers should look like this:	$\begin{array}{r} 3.42 \\ + 2.56 \\ \hline 5.98 \end{array}$
-------------------------------------	--

**Remember:**

- Put the numbers in the right column
- Start working out from the right-hand side

1)  $148 + 9 + 73$

2)  $452 + 769 + 289 + 484$

3)  $713 + 845 + 577 + 265$

4)  $989 + 746 + 896 + 516 + 676$

5)  $1.65 + 7.23$

6)  $6.32 + 2.4$

7)  $5.7 + 4.26$

8)  $8.89 + 4$

9)  $7 + 3.61$

10)  $2.57 + 5.7$

11)  $1.8 + 3.71$

12)  $5.25 + 8.75$

13)  $3.48 + 6.52$

14)  $5.68 + 2.56 + 9.88 + 4.39$

15)  $8.79 + 7.66 + 6.89 + 5.97 + 8.68$

Date

T: use vertical addition

**Answers**

- 1)  $148 + 9 + 73 = 230$
- 2)  $452 + 769 + 289 + 484 = 1,994$
- 3)  $713 + 845 + 577 + 265 = 2,400$
- 4)  $989 + 746 + 896 + 516 + 676 = 3,823$
- 5)  $1.65 + 7.23 = 8.88$
- 6)  $6.32 + 2.4 = 8.72$
- 7)  $5.7 + 4.26 = 9.96$
- 8)  $8.89 + 4 = 12.89$
- 9)  $7 + 3.61 = 10.61$
- 10)  $2.57 + 5.7 = 8.27$
- 11)  $1.8 + 3.71 = 5.51$
- 12)  $5.25 + 8.75 = 14$
- 13)  $3.48 + 6.52 = 10$
- 14)  $5.68 + 2.56 + 9.88 + 4.39 = 22.51$
- 15)  $8.79 + 7.66 + 6.89 + 5.97 + 8.68 = 37.99$
