

**Date**

**T: plan and carry out an investigation**

**Aim**

**Prediction**

**Method**

Controlled variables:

Independent variable:

Dependent variable:

Equipment

Instructions

Risk assessment

**Results**

**Conclusion**

Discuss:

- link back to prediction
- other findings
- further predictions
- evaluation
- reliability

See [http://www.sciencebuddies.org/science-fair-projects/project\\_variables.shtml](http://www.sciencebuddies.org/science-fair-projects/project_variables.shtml) for an explanation of controlled, dependent and independent variables
